

## IMPORTANT SAFETY RECALL NOTICE FOR YOUR WINCHESTER XPR RIFLE

Dear Valued Customer,

In our continual product testing, we have learned of an issue that is important to the safety of all XPR owners. It has come to our attention that a manipulation of the safety switch may cause movement in the trigger system that could result in unintended firing of certain XPR rifles.

**WARNING: Do not load or shoot any XPR rifle until it has been returned to our service center and received a retrofit. Failure to follow this warning may result in a risk of harm, including serious personal injury or death to you and others.**

In order to exercise an abundance of caution on behalf of all XPR owners, we have decided to replace certain trigger group parts at no charge. This will require that all XPR rifles are sent to our service facility for a retrofit. We respectfully require all owners to return their rifles for this retrofit.

All of us at Winchester Repeating Arms understand how inconvenient this is. We are aware that hunting seasons are open all across the country. But, in our commitment to safety, we request that you follow the details below on how to return your rifle for retrofitting. In no way does the retrofit of your XPR affect its inherent accuracy, durability, handling ease or overall performance.

### IMPORTANT SAFETY CONSIDERATIONS:

- **In the interest of safety, do not load or shoot any XPR rifle until it has been returned to our service center and received the retrofit.**
- Never attempt to repetitively manipulate the safety lever or button of any firearm.
- **Unfortunately, failing to return any XPR rifle(s) for retrofit may create a risk of harm, including serious personal injury or death to you and others.**
- It goes without saying; never point any firearm at anything you do not intend to shoot.

As a token of our appreciation for your assistance, your rifle will be returned to you in a special Winchester Repeating Arms hard case. Please use and enjoy it as a thank you from all of us.

Thank you again for your understanding and cooperation,

The Employees of Winchester Repeating Arms

## HOW TO UPGRADE YOUR XPR RIFLE AS QUICKLY AS POSSIBLE:

1. Contact us as soon as possible using one of the following ways:
  - a. Call Winchester Repeating Arms toll-free at 1-800-727-4312. Operators are available during regular business hours Mountain Time. Messages left will be returned as quickly as possible. Be prepared with your rifle's serial number and your address information, or
  - b. Complete the included questionnaire and mail the questionnaire to the Winchester Recall Administrative Center in Morgan, Utah, using the included postage-paid envelope, or
  - c. Scan the completed questionnaire and e-mail it to Winchester Repeating Arms at [XPR@winchesterguns.com](mailto:XPR@winchesterguns.com)
2. Once we receive your questionnaire/information, a shipping kit including a shipping box, detailed instructions and postage paid UPS shipping label will be sent to you -- shipping will cost you nothing.
3. We promise to be fast. We will upgrade your rifle within 48 hours after it arrives at our service center.
